

PR-Note

100 % certified organic - Cosphatec's new Cosphaderm® SF-D organic

Cosphatec introduces a brand new product - the Cosphaderm® SF-D organic.

The convincing sunflower lecithin comes from certified organic farming and was processed purely ecologically. Of course, no genetic modifications were made to the raw material and it is organic certified according to the EG-ÖKO-Verordnung (DE-ÖKO-005).

Great features make this lecithin the new favourite of formulation experts.

- Recommended concentration of 4.0 %
- Powdered form enhances easy handling
- Especially bright quality
- No allergenic potential (compared to soya lecithin)
- ECOCERT/COSMOS compliant and certifiable
- 100 % organic quality of the final product
